The Institute of Learning in Retirement is a group of retirement age active seniors who are committed to life-long learning. For a yearly membership fee, you will receive quarterly schedules of our activities. Classes, trips, discussion groups, and socials require registration and payment.

There are over 300 such college-sponsored institutes and centers in the U.S., and we are one of the largest in Virginia. Our ILR began in 1993 with 15 interested members, and has had as many as 900 active members from Virginia Beach and surrounding cities. We are housed at the Virginia Beach campus of Tidewater Community College and are in partnership with the Virginia Library system.

Membership

ILR membership is open to all who have reached retirement age without regard to race, religion, gender, color, or national origin. Volunteers interested in enriching their retirement years run the organization, with the help of one employee who sees to the business of operation.

What does it cost?

ILR members pay an annual membership fee of \$20. Each class selected costs \$14 per two-hour session. The ILR social, membership, and travel events are priced accordingly.

Programs

The schedule for classes and trips is offered by quarters (Jan-Mar, Apr-Jun, Jul-Sep, Oct-Dec). Members can register for programs as soon as the schedule is mailed or posted on the ILR website. (ilrvb.org > current forms&flyers)

Members register for the classes and activities that interest them. Topics are drawn from the arts, social issues, science and technology, history and world affairs, and health-related subjects. ILR also has special interest groups that organize as members express interest. Currently we have SITESEEERS, who discuss travel. The ILR Book Group, Great Books and Great Decisions are temporarily suspended. Call the office for contact information about these groups.

Our classes are usually two-hour presentations. Each calendar quarter, ILR offers 20 to 25 different classes planned by our Curriculum Committee. Classes meet Monday through Thursday in either the morning (10-12) or afternoon (1-3). Area college and university faculty teach many of our classes, but area experts and our members deliver others. **All classes are taught on the TCC Virginia Beach Campus and/or Zoom** unless otherwise specified. (See Registration form for Location details.)

Course Title: The Value of Philosophy for Everyday Life

Date and Time: Tuesday, July 12, 1:00 - 3:00 pm

The true philosopher or “lover of wisdom” was committed to living a contemplative and self-disciplined life in the pursuit of truth. The dedicated practice of philosophy promised the ability to meet life’s challenges with serenity and courage. Over the centuries, philosophy gradually retreated into the university, where it became a purely academic study having little to do with the concerns and problems of people's actual lives. The 20th-century British philosopher Bertrand Russell, writing in the shadow of the second world war and the looming threat of nuclear holocaust, spoke of the urgent need to recover the practice of philosophy in everyday life.

Course Title: The Holocaust: What We Now Know

Date and Time: Thursday, August 11, 10:00 - 12:00

Location: TCC and Zoom

Course Description: Certain historical moments have defined the ways that U.S. citizens understand the Holocaust. They include the U.S. Army's liberation of Dachau and Buchenwald (1945), the Nuremberg Trials (1945-46), the trial of Adolf Eichmann in Jerusalem (1961), the miniseries *Holocaust* (1978) and the film *Schindler's List* (1993). Since the 1990s, however, scholars' understanding of the Holocaust has undergone a comprehensive metamorphosis, which has been informed, in part, by the opening of archives in the former Eastern Bloc countries, the primary sites of the killing fields. This course explores the new insights and interpretations that have come to light since the 1990s. It demonstrates that a full understanding of the Holocaust extends beyond knowledge of the concentration camps and the main perpetrators.

Americans, or the British? What role, if any, did they play? Were they respected, or viewed as savages? Join Randolph G. Flood as he discusses tribal Nations and their actions during our American Revolution.

Speaker: Randy Flood is a historian and Co-founder of The *Real* American Revolution, a nonprofit organization established to educate citizens about the American Revolution. Professionally, Randy began his career by serving on the staff of the United States Senate and has taught courses about politics and the legislative processes at numerous colleges and universities in the Washington metropolitan area. Currently he resides in Williamsburg, Virginia, where he is working with communities about the national historic trail that Generals Washington and Rochambeau and their armies traveled to entrap Lord Cornwallis and his British Army at Yorktown.
